PROFESSIONAL EXPERIENCE

Software Engineer (Senior Frontend Developer) — Hocalwire Labs Pvt Ltd, Faridabad, Haryana

Jan 2023 – Present

React.js · Next.js · TypeScript · Node.js · Redux · TanStack Query · Web Components · Docker

- Built web frontend solutions using HTML5, CSS3, JavaScript/TypeScript, React.js, Next.js, Web Components & Tailwind CSS across 3 enterprise applications — cutting development time by 25% and increasing team velocity 3x.
- Designed and implemented RESTful, SOAP, and GraphQL API endpoints; defined schemas and data-flow pipelines with Axios interceptors and TanStack Query caching — reducing API latency by 45%.
- Architected modular, reusable Web Component libraries and frontend microservices following MVC/Flux patterns, enabling non-technical content updates without redeployment.
- Drove performance optimization (SSR/ISR, bundle analysis, lazy loading, image compression) — boosting Lighthouse scores by 35% and achieving sub-2s page loads.
- Collaborated with DevOps to implement Docker-based CI/CD pipelines enabling zero-downtime deployments and reducing production bugs by 60%.
- Incorporated the Razorpay payment gateway, handling 500+ monthly transactions with secure signature verification — debugged a critical auth bug saving ₹50K+/month in revenue.
- Implemented comprehensive automated tests using Jest, Vitest & React Testing Library; followed TDD practices with pre-deployment QA for every release.
- Translated 200+ Figma prototypes into pixel-perfect, WCAG 2.1 AA-compliant responsive layouts with keyboard navigation, semantic HTML & ARIA attributes across all major browsers.
- Wrote Node.js backend integrations and collaborated with backend teams on payload contracts, data schemas, and API validation — enabling full-stack feature delivery.
- Mentored 2 junior developers through weekly one-on-one code reviews on TypeScript, React & Next.js — both promoted to mid-level within 18 months.

KEY PROJECTS

Shopperce.ai — Multi-Tenant eCommerce Platform

React.js · Next.js · TypeScript · Node.js · Redux · TanStack Query · Web Components · Razorpay · Google Analytics

- Built a scalable multi-tenant platform supporting 20+ storefronts from a single React.js codebase using dynamic routing — reducing codebase size by 35%.
- Engineered a white-label theming engine (design system) for 18 active tenants; built seller/admin dashboards for orders, products & categories.
- Implemented the full Razorpay payment flow with signature verification for 500+ monthly transactions; achieved a 92 Lighthouse score and 2.1s page load.
- Connected Google Analytics & Google Merchant Center, tracking 1,000+ SKUs — increasing search visibility by 40%.

WetPro Minerals — Corporate Web Platform

React.js · Next.js · TypeScript · Tailwind CSS · SSR/ISR · WCAG 2.1

- Used SSR & ISR to cut TTFB by 30%; achieved a 95+ Lighthouse SEO score and top-5% Core Web Vitals globally (LCP 1.8s, FID 80ms, CLS 0.05).
- Built a WCAG 2.1 Level AA compliant, modular, API-based site designed for future CMS integration.

NextLeap IT Solutions — Corporate Web Platform

React.js · TypeScript · Next.js · Netlify CI/CD · Responsive Design

- Built a mobile-first site validated on 15+ devices — mobile 89+, desktop 92+ Lighthouse scores; SSR & ISR cut TTFB by 30%.
- Automated Netlify deployments with preview environments for QA; provided full WCAG-aligned accessibility.

KEY ACHIEVEMENTS

- 3.5+ years of experience delivering products to 20,000+ monthly users with 92-95 Lighthouse scores and top-5% Core Web Vitals globally.
- Achieved a 35% Lighthouse/performance improvement, 40% TTFB reduction, and 45% API latency reduction across projects.
- Reduced production bugs by 60% through Docker-based CI/CD pipelines and TDD practices.
- Processed 500+ monthly payment transactions across 18 active multi-tenant clients, safeguarding ₹50K+/month in revenue.
- Mentored 2 junior developers to mid-level promotion within 18 months through weekly one-on-one code reviews.
